LB 703A, 703

recommendation was only \$146,000. So it simply raises the cap from 10 percent to 20 percent, and I would ask the body to adopt the amendment, and I would be happy to answer any questions.

SPEAKER BAACK: Thank you, Senator Moore. Senator Wehrbein.

SENATOR WEHRBEIN: Yes, Mr. Speaker and members, I was just briefly going to add to that, for those that might be concerned about the money, it would come out of money presently going for grants. And I'm sure that's agreeable within the...in the area, because the registry is very important. And so this simply allocates this money to registry. It would reduce the money going for grants by this amount, but the registry is very important to that research, and so I think this is just something that we didn't catch the other day in our deliberations on changing this cap. So I'd urge support of the amendment.

SPEAKER BAACK: Thank you, Senator Wehrbein. Further discussion on the amendment by Senator Moore? Senator Moore, do you wish to close?
